

HealthKit

You can use HealthKit credits to pay for helpful and optional add-ons to turbo-charge your practice at any time.

1 HealthKit credit = \$0.22

And you can **top up in bulk** to pay less.

What's free in HealthKit

We built HealthKit for the same reason you became a doctor or practitioner: to make health better.

We don't think you should have to pay to treat your patients or for software to manage your practice. Therefore, your HealthKit practice management software is free, including:

- Diary and bookings
- Practice group scheduling
- Invoicing and billing for patients and organisations
- Patient profiles
- Case notes and clinical records
- Directory profile
- Financial reports

All you pay for is payments and rebates processed through our system (like you'd pay your bank), SMS reminders and other helpful add-ons. That's it.

*Medicare, DVA,
TAC Rebates Claiming
Medipass Integration*

Simplify claiming

- Claim patient and bulk bill rebates instantly with rebates received overnight.
- Process HICAPS Go claims seamlessly.

Medicare/DVA: 1 credit
TAC / WorkCover QLD: 3 credits
